

Acknowledgments

The Co-chairs would like to thank Ronnie Smith for his advice and software for automating several steps in the review process. We also thank Laila Dybkjær and David Traum from SIGdial, and Dragomir Radev, the publications chair for ACL 2002. We also acknowledge final support to the second co-chair from the National Science Foundation (under grants IRI-9701617 and IRI-9952703), Wright State University (from NSF BCS-9980054) and Intel Corporation.
